## INDEPENDENT AUDITORS' REPORT

To the Board of Directors  
Donald Wescott Fire Protection District  
Colorado Springs, Colorado

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Donald Wescott Fire Protection District as of and for the year ended December 31, 2010, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Donald Wescott Fire Protection District as of December 31, 2010, and the respective changes in financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, schedule of funding progress, schedule of employer contributions and budgetary comparison information as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

**DONALD WESCOTT FIRE PROTECTION DISTRICT  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
FOR FISCAL YEAR ENDED DECEMBER 31, 2010**

As management of Donald Wescott Fire Protection District (the District) we offer readers of the District's annual financial report this narrative overview and analysis of the financial activities of the District for the fiscal year ended December 31, 2010. Readers are encouraged to consider the information presented here in conjunction with the annual financial report.

**FINANCIAL HIGHLIGHTS**

- The assets of the district exceeded its liabilities by \$3,502,866 (*net assets*). Of this amount, \$1,292,130 (*unrestricted net assets*) may be used to meet the District's ongoing obligations to its citizens and creditors.
- As of the close of the fiscal year, the General Fund reported an ending fund balance of \$3,038,372 an increase of \$1,340,527 in comparison with the prior year. Approximately ninety-eight percent of this total amount, \$2,976,938 is available for spending at the District discretion (*unreserved, undesignated fund balance*).
- At the end of the current fiscal year, unreserved, undesignated fund balance was 125% of total expenditures.

**OVERVIEW OF THE FINANCIAL STATEMENTS**

This discussion and analysis serves as an introduction to the District's basic financial statements. The District's basic financial statements consist of three components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements. This report also contains required and other supplementary information in addition to the basic financial statements.

**Government-wide Financial Statements**

The *government-wide financial statements* are designed to provide readers with a broad overview of the District's finances as a whole, in a manner similar to a private-sector business and include two statements:

The *statement of net assets* presents information on all of the District's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The *statement of activities* presents information reporting how the District's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will result in cash flows in future fiscal periods. Accrued interest expense is an example of this type of item.

Both government-wide financial statements distinguish functions of the District that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the District include general and administrative activities and fire and emergency medical services. Currently, the District has no business-type activities.

## **Fund Financial Statements**

A fund is a grouping of related accounts used to maintain control over resources segregated for specific activities or objectives. The fund financial statements provide more detailed information about the District's operations, focusing on its most significant funds, not the District as a whole. The District has two funds: the General fund, which is a governmental fund; and the Pension fund, which is a fiduciary fund.

**Governmental Funds:** The District's basic services are included in this governmental fund, which focuses on (1) how money flows into and out of the fund and (2) the balances left at year-end that are available for spending or reserves. Consequently, the governmental fund statements provide a detailed short-term view that helps determine the status of financial resources that can be spent in the near future to finance the District's programs.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. Thus, readers may better understand the long-term impact of the District's near-term financing decisions. To facilitate this comparison between governmental funds and governmental activities, reconciliations are provided for both the governmental fund balance sheet and the statement of revenues, expenditures, and changes in fund balance.

**Fiduciary Funds:** Fiduciary funds are used to account for resources held for the benefit of parties outside of the government. Fiduciary funds are *not* reflected in the government-wide financial statement because the resources of those funds are *not* available to support the District's own programs.

## **Notes to the Basic Financial Statements**

The notes to the basic financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

## **Required Supplementary Information**

In addition to the basic financial statements and accompanying notes, this report also presents required supplementary information concerning the District. The District adopts an annual appropriated budget for the general fund. A budgetary comparison schedule has been provided to demonstrate compliance with the budget.

## GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net assets may serve over time as a useful indicator of the District's financial position. In the case of the District, total assets exceeded liabilities by \$3,502,866 as of December 31, 2010.

61% of the District's assets are its investment in capital assets, net of related debt.

## ANALYSIS OF THE DISTRICT'S FUNDS

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The general fund is the operating fund of the District. The fund balance for the general fund was \$3,038,372 at the end of the current fiscal year.

## BUDGETARY HIGHLIGHTS

On September 25, 2006, the District entered in a lease purchase agreement for a new fire truck. This lease was paid off in full during 2010. In 2010, the District purchased a new Rosenbauer 75' Aerial Ladder truck and made a deposit on a Rosenbauer Pumper for delivery in 2011.

On October 8, 2010, the District entered into a lease purchase agreement to construct a new fire station. This lease qualifies as a capital lease and has a fixed interest rate of 4.0625% over a 15 year period. Annual payments of \$173,336 will begin on July 1, 2011. Construction of the fire station will be ongoing through 2011. Any unused proceeds are held in a project disbursement account through Wells Fargo Public Financing and are restricted for the construction of the new fire station.

The District implemented an Information Technology (IT) upgrade to Station #1 to improve communication, reliability and operational effectiveness.

These new acquisitions represent a significant investment to meet the District's growing needs.

## CAPITAL ASSETS AND DEBT ADMINISTRATION

### Capital Assets

Capital assets include land, buildings and improvements, vehicles and equipment. The District's investment in capital assets for its governmental activities at the end of the year was \$2,182,180.

	<u>2010</u>	<u>2009</u>
Land & Construction in Progress	\$ 368,085	\$ 198,237

Total capital assets, net	<u>\$ 2,182,180</u>	<u>\$ 1,563,306</u>

### Long-term debt

At the end of current fiscal year, the District had \$1,683,000 capital lease payable.

	<u>2010</u>	<u>2009</u>
Capital lease payable	<u>\$ 1,683,000</u>	<u>\$ 196,551</u>

## **ECONOMIC FACTORS**

The District and the City of Colorado Springs have a mutual agreement to provide dual coverage on specific properties located in the southern boundaries of the District. Property owners are paying dual taxes for their fire protection.

Due to development and an increase in the assessment of property in this area, the dual jurisdiction area is now more than 50% of assessed value of the District. The Donald Wescott Fire Protection District Board is aware of this issue and will continue to work with the City regarding this issue.

The Board approved an increase to \$90,000 in the budget for the Volunteer Pension Fund for Fiscal Year 2010. The District will receive a matching contribution from the State of Colorado, bringing the net assets for the Pension Fund to \$862,397. This year the Pension Fund experienced significant market fluctuations that impacted upon the performance of the fund.

## **REQUESTS FOR INFORMATION**

This financial report is designed to provide the District's taxpayers and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact Chief Vinny Burns, Donald Wescott Fire Protection District, 15415 Gleneagle Drive, Colorado Springs, CO 80921.

TO THE STATEMENT OF ACTIVITIES  
FOR THE YEAR ENDED DECEMBER 31, 2010

**Total net change in fund balance - governmental funds** \$ 1,340,527

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation exceeded capital outlays.

Depreciation expense	(199,933)
Capital outlays	793,192

Governmental funds measure compensated absences by the amount of financial resources used, whereas these expenses are reported in the statement of activities based on the amounts earned during the year. (8,751)

The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities.

## **NOTES TO FINANCIAL STATEMENTS**

DONALD WESCOTT FIRE PROTECTION DISTRICT  
NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2010

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The Donald Wescott Fire Protection District (the District) was organized under the laws of the State of Colorado to operate and maintain a special district for the purpose of providing fire and emergency paramedical services to its residents.

The accounting policies of the District conform to generally accepted accounting policies (GAAP) as applicable to governments. The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). The more significant accounting policies established in GAAP and used by the District are discussed below.

*A. FINANCIAL REPORTING ENTITY*

The District is a special district governed by an elected five-member board. The District applies the criteria set forth in GASB Statement #14, *The Financial Reporting Entity*, to determine which governmental organizations should be included in the reporting entity. The District has no component units for which either discrete or blended presentation is required. The inclusion or exclusion of component units based on the elected officials accountability to their constituents, and the financial reporting entity follows the same accountability. Further, the financial statements of the reporting entity should enable the reader to distinguish between the primary government (including its blended component units, which are, in substance, part of the primary government) and discretely presented component units. The criteria used for determining whether an entity should be included, either blended or discretely presented, includes but is not limited to: fiscal dependency, imposition of will, legal standing and the primary recipient of services.

*B. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS*

The government-wide financial statements (i.e. the statement of net assets and the statement of activities) report information on all of the non-fiduciary activities of the government. Eliminations have been made to minimize the double counting of internal activities. Governmental activities are normally supported by taxes and intergovernmental revenues.

The statement of activities demonstrates the degree to which direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. Indirect expense allocations that have been made in the funds have been reversed for the statement of activities. *Program revenues* include 1) fees and charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Revenues that are not classified as program revenues, including all taxes, are reported as *general revenues*.

DONALD WESCOTT FIRE PROTECTION DISTRICT  
NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2010

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

*C. MEASUREMENT FOCUS, BASIS OF ACCOUNTING AND FINANCIAL STATEMENT PRESENTATION*

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flow. On an accrual basis, property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue in the fiscal year in which all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis* of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the period or soon enough thereafter to pay liabilities of the current fiscal period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of long-term debt and acquisitions under capital leases are reported as other financing sources.

The District considers property taxes as available if they are collected within 30 days after year-end. Property taxes are recognized as revenue in the fiscal period for which they are levied, providing the available criteria are met.

Those revenues susceptible to accrual are property taxes and charges for services. Specific ownership taxes collected and held by the county at year-end on behalf of the District are also recognized as revenue.

Entitlements and shared revenues are recorded at the time of receipt or earlier if the accrual criteria are met. Expenditure-driven grants recognize revenue when the qualifying expenditures have been incurred and all other grant requirements have been met.

The accounts of the District are organized and operated on the basis of funds. A fund is an independent fiscal accounting entity with a self-balancing set of accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. The minimum number of funds maintained is consistent with legal and managerial requirements.

DONALD WESCOTT FIRE PROTECTION DISTRICT  
NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2010

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

*C. MEASUREMENT FOCUS, BASIS OF ACCOUNTING AND FINANCIAL STATEMENT PRESENTATION (CONTINUED)*

The District reports the following major governmental fund:

The *General Fund* is the government's primary operating fund. It accounts for all financial resources of the general government.

Additionally, the District reports the following fund type:

The *Pension Fund* accumulates resources for pension benefit payments to qualified employees.

Amounts reported as *program revenues* include 1) charges to customers for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as *general revenues* rather than as programs revenues. Likewise, general revenues include all taxes.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

*D. ASSET, LIABILITIES, AND NET ASSETS OR EQUITY*

*Cash and cash equivalents*

Cash and cash equivalents include cash on hand and in the bank and short-term investments with original maturities of three months or less from the date of acquisition.

*Investments*

Investments are stated at fair value.

*Receivables*

All receivables are reported at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible.

NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2010

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

*D. ASSET, LIABILITIES, AND NET ASSETS OR EQUITY (CONTINUED)*

*Capital Assets*

Capital assets, which include land, buildings, vehicles, and equipment, are reported in the government-wide financial statements. All purchased capital assets are valued at cost where historical records are available and at an estimated historical cost where no historical records exist. Donated capital assets are valued at their estimated fair market value on the date received. Major outlays for capital assets and improvements are capitalized as projects are constructed.

The costs of normal maintenance and repairs that do not add to the value of the asset, or materially extend asset lives, are not capitalized. Improvements are capitalized and are depreciated over the remaining useful lives of the related capital assets, as applicable.

Buildings, vehicles, and equipment of the District are depreciated using the straight-line method over the following estimated useful lives:

Buildings and land improvements	7 to 40 years
Vehicles	5 to 10 years
Equipment	5 to 15 years

When depreciable property is acquired, depreciation is included in expense for the year of acquisition for the number of months during the year the asset was in service. When depreciable property is retired or otherwise disposed of, depreciation is included in expense for the number of months in service during the year of retirement and the related costs and accumulated depreciation are removed from the accounts with any gain or loss reflected in the statement of revenue, expenses and changes in fund net assets.

*Compensated Absences*

It is the District's policy to permit employees to accumulate earned by unused paid time off. All paid time off is accrued when incurred in the government-wide financial statements. A liability for these amounts is reported in the general fund only if they have matured, for example, as a result of employee resignations and retirements.

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

*D. ASSET, LIABILITIES, AND NET ASSETS OR EQUITY (CONTINUED)*

*Net Assets*

Net assets comprise the various net earnings from operating and non-operating revenues, expenses and contributions of capital. Net assets are classified in the following three components: invested in capital assets, net of related debt; restricted; and unrestricted net assets. Invested in capital assets, net of related debt, consists of all capital assets, net of accumulated depreciation and reduced by outstanding debt that is attributable to the acquisition, construction and improvement of those assets; debt related to unspent proceeds or other restricted cash and investments is excluded from the determination. Restricted net assets consists of net assets for which constraints are placed thereon by external parties, such as lenders, grantors, contributors, laws, regulations and enabling legislation, including self imposed legal mandates. Unrestricted net assets consist of all other net assets not included in the above categories.

*Fund Equity*

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for a specific future use. Designated fund balances represent tentative plans for future use of financial resources.

*Estimates*

The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

**NOTE 2—STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY**

*BUDGET INFORMATION*

The District follows these procedures in establishing the budgetary data reflected in the financial statements:

- 1) In the fall, a proposed operation budget is submitted to the Board for the fiscal year commencing the following January 1. The operating budget includes proposed expenditures and the means of financing them.
- 2) Public hearings are conducted by the District to obtain taxpayer comments.
- 3) Prior to December 31, the budget is legally enacted through passage of a resolution. This authorizes a lump-sum expenditure budget by fund for the District. This aggregate expenditure budget, by fund, then becomes the level of control upon which expenditures cannot legally exceed appropriations. An appropriation ordinance is also adopted which allocates the total budget by fund.
- 4) Any revisions that alter the budget of any fund must be approved by the Board by passage of a resolution.
- 5) Formal budgetary integration is employed as a management control device during the year for the general and pension funds.
- 6) Budgets for the general and pension funds are adopted on a basis consistent with generally accepted accounting principles (GAAP). Budgeted amounts are as originally adopted or as amended by the Board.
- 7) All annual appropriations lapse at the end of the year.

While a portion of the pension fund budget was accounted for in the general fund budget, there was no separate pension fund adopted by the District.

**NOTE 3 – DEPOSITS AND INVESTMENTS**

*DEPOSITS*

Colorado state statutes govern the entity's deposit of cash. The Public Deposit Protection Acts for banks and savings and loans requires the state regulators to certify eligible depositories with public deposits. The Acts require the eligible depositories with public deposits in excess of the federal insurance levels to create a single institution collateral pool of defined eligible assets. Eligible collateral includes obligations of the United States, obligations of the State of Colorado or local Colorado governments, and obligations secured by first lien mortgages on real property located in the state. The pool is to be maintained by another institution or held in trust for all the uninsured public deposits as a group. The market value of the assets in the pool must be at least equal to 102% of uninsured deposits.

At December 31, 2010, the carrying amounts of the District's deposits were \$306,078 and the bank balances were \$339,122. Of the total bank balances at December 31, 2010 \$250,000 was covered by FDIC insurance.

**NOTE 3 - DEPOSITS AND INVESTMENTS (CONTINUED)**

*INVESTMENTS*

The District is authorized by Colorado State Statutes to invest in the following:

- Bonds and other interest-bearing obligations of the United States government.
- Bonds and other interest-bearing obligations which are guaranteed by the United States government.
- Bonds which are a direct obligation of the State of Colorado, or of any city, county, or school district therein.
- Notes or bonds issued pursuant to the “National Housing Act”.
- Repurchase agreements.
- Local government investment pools.

At December 31, 2010 the District’s investment balances were as follows:

<u>Investment</u>	<u>Maturities</u>	<u>Fair Value</u>
General Fund:		
COLOTRUST	Less than 60 days	\$ 1,088,298
Money market	Less than 60 days	<u>1,650,122</u>

Pension Fund:		
Pooled investments	Less than 60 days	<u>862,397</u>
Total Pension Fund		<u>862,397</u>
Total Investments		<u>\$ 3,600,817</u>

*Interest Rate Risk:* The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses from increasing interest rates.

*Credit Risk:* State law limits investments as described above. The District does not have an investment policy that would further limit its investment choices. As of December 31, 2010, the District’s investments in COLOTRUST were rated AAA by Standard & Poor’s.

**NOTE 3 - DEPOSITS AND INVESTMENTS (CONTINUED)**

Colorado Surplus Asset Fund Trust (COLOTRUST) is an investment vehicle established for local government entities in Colorado to pool surplus funds for investment purposes by state statutes. COLOTRUST operates similarly to a money market fund and each share is equal in value to \$1.00. Designated custodial banks provide safekeeping and depository services to COLOTRUST in connection with the direct investment and withdrawal functions of COLOTRUST. All securities owned by COLOTRUST are held by the Federal Reserve Bank in the account maintained for the custodial bank. The custodian's internal records identify the investments owned by COLOTRUST. Investments of COLOTRUST consist of U.S. Treasury bills, notes and note strips and repurchase agreements collateralized by U.S. Treasury notes.

**NOTE 4 - PROPERTY TAX**

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on January 1 and payable in two installments due February 28 and June 15, or in one installment due April 30. El Paso County Treasurer bills and collects property taxes for the District. District property tax revenues are recognized when levied to the extent that they result in current receivables.

The District is permitted to levy taxes on the assessed valuation for general governmental services and for the payment of principal and interest on long-term debt. The combined tax rate to finance general governmental services for the year ended December 31, 2010 was 7.00 mills. The District's assessed valuation for 2010 was \$259,458,740.

**NOTE 6 – LONG-TERM LIABILITIES**

*Capital lease – fire truck*

The District entered into a lease on September 25, 2006 purchase of a new fire truck. This lease qualifies as a capital lease. The lease agreement provides for a fixed interest rate of 4.35%. The lease requires annual payments of \$54,595 beginning July 15, 2007. Upon full satisfaction of the lease, the District will have the option to purchase the truck for \$1. This lease was paid off in full during 2010.

*Capital lease – fire station*

The District entered into a lease purchase agreement on October 8, 2010 to construct a new fire station. The lease qualifies as a capital lease. The lease agreement provides for a fixed interest rate of 4.0625% and requires 15 annual payments of \$173,336 beginning July 1, 2011. Upon full satisfaction of the lease, the District will have the option to purchase the fire station for \$1.

Construction of the fire station was in progress as of December 31, 2010. Unspent proceeds are held in a project disbursement account and are restricted for the construction of the fire station.

Annual debt service requirements to maturity for the fire station capital lease are as follows:

<u>Year Ending</u> <u>December 31</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>

**NOTE 7 – NET ASSETS**

The District has net assets consisting of three components—Invested in capital assets; Restricted; and Unrestricted.

Invested in capital assets consists of capital assets net of accumulated depreciation reduced by outstanding debt that is attributable to the acquisition, construction, or improvement of those assets. As of December 31, 2010, the District had invested in capital assets, net of related debt as follows:

Invested in Capital Assets:	
Capital assets, net of depreciation	\$ 2,182,180
Less: capital lease obligations	(1,683,000)
Add: unspent lease proceeds	<u>1,650,122</u>
Total	<u>\$ 2,149,302</u>

Restricted assets include net assets that are restricted for use either externally imposed by creditors, grantors, contributors, or laws and regulations of other governments; or imposed by law through constitutional provisions or enabling legislation. As of December 31, 2010, the District had restricted net assets as follows:

Restricted:	
TABOR emergency reserve	<u>\$ 61,434</u>

Unrestricted net assets consist of net assets that do not meet the definition of invested in capital assets, or restricted net assets. The District utilizes unrestricted net assets before using restricted net assets. As of December 31, 2010, the District had unrestricted net assets of \$1,292,130.

**NOTE 8 - DEFINED BENEFIT PENSION PLAN**

*Plan Description.* Donald Wescott Fire Protection District contributes to the Statewide Defined Benefit Plan, a cost-sharing multiple-employer defined benefit pension plan administered by the Colorado Fire and Police Pension Association. The Statewide Defined Benefit Plan provides retirement benefits for members and beneficiaries. Death and disability coverage is provided for members through the Statewide Death and Disability Plan which is also administered by the Colorado Fire and Police Pension Association. This is a non-contributory plan. All full-time, paid police officers/firefighters of the Donald Wescott Fire Protection District are members of the Statewide Defined Benefit Plan and the Statewide Death and Disability Plan. Title 31, Article 30 of the Colorado Revised Statutes (CRS), as amended, assigns the authority to establish benefit provisions to the state legislature. FPPA issues a publicly available annual financial report that includes financial statements and required supplementary information for both the Statewide Defined Benefit Plan and the Statewide Death and Disability Plan. That report may be obtained by writing to FPPA of Colorado, 5290 DTC Parkway, Suite 100, Englewood, Colorado 80111 or by calling FPPA at 770-3772 in the Denver metro area, or 1-800-332-FPPA (3772) from outside the metro area.

*Basis of accounting for the Statewide Defined Benefit Plan.* The financial statements of the Statewide Defined Benefit Plan are prepared using the accrual basis of accounting. Plan member contributions are recognized in the period in which the contributions are due. Benefits and refunds are recognized when due and are payable in accordance with the terms of the plan. The Statewide Defined Benefit Plan investments are presented at fair value except for short-term investments which are recorded at cost, which approximates fair value.

*Funding Policy.* Plan members and the Donald Wescott Fire Protection District are required to contribute at a rate set by statute. The contribution requirements of plan members and the Donald Wescott Fire Protection District are established under Title 31, Article 30, Part 10 of the CRS, as amended. The contribution rate for members is 8.0% of covered salary and for Donald Wescott Fire Protection District it is 8.0% of covered salary. The Donald Wescott Fire Protection District contributions to the Statewide Defined Benefit Plan for the years ending December 31, 2010, 2009 and 2008 were \$60,948, \$52,697, and \$46,680, respectively, equal to their required contributions for each year.

**NOTE 9 - VOLUNTEER FIREFIGHTER PENSION PLAN**

*Plan Description.* Effective January 1, 2002, the District affiliated with the Fire and Police Pension Association of Colorado (FPPA) to administer its Volunteer Firefighter Pension Plan and to manage the plan's assets and activities. The Volunteer Firefighter Pension Plan is included in an agent multiple employer Public Employee Retirement System (PERS) maintained in trust by FPPA. It is accounted for in the Pension Fund and operates under rules consistent with the enabling legislation in Title 31, Article 30, Part 11 of the Colorado Revised Statutes. While the District's plan is pooled with other plans by FPPA, it is a separate plan and is administered by a board of trustees composed of District board members and volunteer firefighters, selected in accordance with Colorado state statutes. As discussed in Note 8, FPPA issues an annual financial report. That report also includes the District's Volunteer Firefighter Pension Plan.

A volunteer firefighter electing to retire on or after the normal retirement date (the date on which he/she has attained fifty years of age and completed twenty years of active service) is eligible for a monthly pension approved by the board, in accordance with state statute. The monthly pension benefit for volunteer retirees is \$300. The plan also provides benefits for short and long term disability, survivors, and a one-time death benefit.

*Funding Policy and Basis of Accounting.* The funding policy provides for periodic employer contributions, based on actuarially determined amounts that are adequate to accumulate sufficient assets to pay pension benefits when due, subject to an increase limitation. Actuarial analysis is performed every two years.

The pension fund for the Volunteer Firefighter Pension Plan uses the accrual basis of accounting. Plan contributions are recognized when they are received. Benefits and expenses are recognized when they are incurred in accordance with the terms of the plan.

*Actuarial Information.* The required contributions for the plan were determined as part of the January 1, 2009 actuarial valuations. The projection of future benefits for an ongoing plan involves estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The projection of benefits does not explicitly incorporate the potential effects of legal or contractual funding limitations. The actuarial methods and assumptions used are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations. Amounts determined for the funded status of the plan and the annual required contribution of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

*Annual Pension Cost and Net Pension Obligation.* The District's annual pension cost and net pension obligation for the year ended December 31, 2010 were as follows:

Annual required contribution	\$ 108,302
Contribution for the plan year	\$ 90,000
Estimated net pension obligation, January 1, 2009	\$ -
Estimated net pension obligation, December 31, 2010	\$ -

Three year trend information is as follows:

Actuarial accrued liability	\$ 499,196
Unfunded liability (Surplus)	\$ (38,475)
Funded ratio	108%

**NOTE 10 - RISK MANAGEMENT**

The District is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

The District carries commercial insurance for these risks of loss, including worker's compensation and employee health and accident insurance. Settled claims resulting from these risks have not exceeded commercial insurance coverage during any of the last three fiscal years.

**NOTE 11 - CONTINGENCIES**

*TAX BOUNDARIES*

The tax boundaries of the District include certain areas that have been annexed into the City of Colorado Springs (the City) over time. The District and the City have entered into a plan to transfer this property from the District. The District and the City have not set a specific date as to when this will occur. The dual jurisdiction area encompasses more than 50% of the assessed value of the District.

**NOTE 12 - AMENDMENT TO COLORADO CONSTITUTION**

Colorado voters passed an amendment to the *State Constitution*, Article X, Section 20, which has several limitations, including revenue raising, spending abilities, and other specific requirements of state and local governments.

The entity's activity provides the basis for calculation of limitations adjusted for allowable increases tied to inflation and local growth.

Fiscal year spending and revenue limits are determined based on the prior year's spending adjusted for inflation and local growth. Revenue in excess of the limit must be refunded unless the voters approve retention of such revenue.

Fiscal year spending is generally defined as expenditures plus reserve increases, with certain exceptions. In effect, it has been generally interpreted that fiscal year spending approximates nonexempt revenue or receipts. Spending excludes spending from certain revenue and financial sources such as federal funds, gifts, property sales, fund transfers, damage awards, and fund reserves.

The Amendment requires, with certain exceptions, voter approval prior to imposing new taxes, increasing tax rates, increasing a mill levy above that for the prior year, extending an expiring tax, or implementing a tax policy change directly causing a net tax revenue gain to any local government.

On November 4, 1997, District voters approved an increase in the mill levy and authorized the District to collect, retain and spend for fire protection purposes all revenue from such tax levy and all other District revenue as a voter approved revenue change and an exception to the limits which otherwise apply, effective January 1, 1998 and continuing thereafter. This vote effectively removed the District from some provisions of TABOR.

On November 5, 2002, District voters approved a mill levy increase to 7 mills, effective January 1, 2003, in order to provide for District operations after the exclusion of various properties from the District.

DONALD WESCOTT FIRE PROTECTION DISTRICT  
NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2010

**NOTE 12 - AMENDMENT TO COLORADO CONSTITUTION (CONTINUED)**

The Amendment requires that Emergency Reserves be established. These reserves must be at least 3 percent of Fiscal Year Spending (excluding bonded debt service) in 2010. Emergency reserves as of December 31, 2010 totaling \$61,434 have been presented as a reservation of fund balance. The entity is not allowed to use the emergency reserves to compensate for economic conditions, revenue shortfalls, or salary or benefit increases.

The Amendment is complex and subject to judicial interpretation. The entity believes it is in compliance with the requirements of the amendment. However, the entity has made certain interpretations in the amendment's language in order to determine its compliance.
